The Netherlands

## SUMMARY

A dedicated Frontend Developer specializing in JavaScript, TypeScript, and React. I thrive on teamwork and collaboration, and am always eager to learn new things.

## EXPERIENCE

### Frontend Developer

#### Accelerator App

02/2022 - Present Remote

SaaS for incubators and accelerators to manage programs for startups. Remote-first company, working asynchronously.

- Implemented the frontend of 10+ projects from conception to deployment.
- Collaborated with team members to align the design, frontend, backend, and DevOps.
- Conducted code reviews and provided constructive feedback to team members.
- Mentored junior developers and assisted in their professional growth.
- Implemented unit tests and automated testing procedures using Jest.

### Frontend Developer

#### zenHQ

01/2021 - 02/2022 Remote

SaaS e-commerce platform. Remote-first company.

- Developed responsive and user-friendly web applications using HTML5, CSS3, JavaScript, Redux and React.js.
- Collaborated with backend developers to integrate front-end and back-end systems.
- Developed and maintained technical documentation.

### Project Manager

#### zenHQ

07/2020 - 01/2021 Remote

SaaS e-commerce platform. Remote-first company.

- Coordinated tasks and activities among a cross-functional team to ensure timely completion of project deliverables.
- Tracked project progress against objectives, providing regular updates to stakeholders on project status and performance.

### Revenue Coordinator

#### Short Stay Group

01/2018 - 12/2018 Amsterdam

Short-stay apartment rental company with apartments in Amsterdam, Paris and Barcelona

- Responsible for the pricing of all 500 apartments in the company's portfolio.
- Analyzed the financial performance of the company and created monthly financial reports for management to explain and describe trends and strategies.
